

PRE-REGISTRATION PRESENTATION

During the Roman Empire era, Quaestors were elected officials who supervised the treasury and financial accounts of the state, its armies and its officers. The Quaestors were tasked with financial supervision. To understand:

We provide services for you and never touch your money or accounts. Your financial decisions are yours alone.

Disclaimer

Before speaking with potential affiliates, the law states that we must make the following disclaimer:

It is illegal for a promoter or any participant in a trading business to persuade anyone to:

- 1 Make a payment by promising benefits from recruiting
- 2 To make any claims describing “high incomes are easily achieved”.

Quaestor Solutions
owns the following brands:

- 1 Quaestor Master Node "Click It"
- 2 Quaestor Bot
- 3 Quaestor Coin
- 4 Quaestor Exchange

What is a Master Node

It is complicated to set up a Master Node. For untrained people without Linux experience, it's an impossible task. We will teach you about Master Nodes during the summer, and create an automated system.

MASTERNODE DEFINITION:

Master nodes are computer servers, setup to serve the users of a particular cryptocurrency.

To say it simply, a Master node helps to maintain the network. And because of that - a Master node is PAID to do so, as all Master nodes are rewarded with coins that are mined or minted.

Hosting a Dash Master node generates Dash coins, a Polis Master node generates Polis coins, and a Quaestor Master node, of course, generates Quaestor coins. The earnings varies primarily according to the Master node count and each coin might have different payout periods.

Therefore, holding a Master node actually pays you coins every day or week. As an added bonus, you STILL own & control the coin that you put IN the Master node. We strongly believe this will be the BIG crypto opportunity of 2018

Quaestor Master Node "Click It"

With the Master Node (MN) "Click It", you can easily create all the Master Nodes you want in a few minutes just by clicking your mouse.

You can set up your own Master Node. If you do not have the funds to create a MN, then you can ask the community (network) to join your MN.

Master Node "Click It" is available 3rd/4th quarter 2018

Monthly Fee

Quaestor Master Node "Click It"	1	(up to 1 Master Node)	= € 100
Quaestor Master Node "Click It"	3	(up to 3 Master Node)	= € 270
Quaestor Master Node "Click It"	6	(up to 6 Master Node)	= € 480
Quaestor Master Node "Click It"	10	(up to 10 Master Node)	= € 700
Quaestor Master Node "Click It"	infinity	(from 11 Master Node)	= € 1000

Quaestor Trading Bot

Our Trading Bot Software will bring your crypto trading to a whole new level. You can trade on multiple exchanges simultaneously from 1 bot with many features that has never been seen with a trading bot before. We are in final testing for Bot 1.0, and our programming team has begun (May 15th, 2018) to program the Bot 2.0 version. Once ready, you can easily setup the bot in your back office.

The details regarding how the Bot works will be announced soon. We strongly believe that you will be very excited:

FEATURES:

- Start trading
- Pause trading
- Stop trading
- Re-buy functionality
- Own adjustment of parameters and signals

Monthly Fee € 100

Quaestor Coin

Quaestor coin and Master Node “Click It” will launch at the same time, therefore the first Master Node to run in the Master Node “Click It” platform will be our very own Quaestor coin.

Depending on your efforts of referring new members and building your organization, you will be able to obtain free Quaestor coins until the coin is released on public exchanges. The coins you receive will be placed in Master Nodes. This Master Node will deposit your monthly mined interest into your wallet for 10 years to come. This ensures a continuous demand for the coin and a long term residual income for our Affiliates.

When we officially launch, no more than 3% of the total supply of coins will be released onto the exchanges.

Quaestor Coin Supply

Total Quaestor Coin supply will be 20,000,000 (Twenty Million)
200,000 coins are reserved for our development team.

400,000 coins are reserved for Affiliates, who are building the Quaestor network. (200 Master Nodes)
19,400,000 coins are assigned for Master Node interest earnings. This secures that interest will run for 10
years or 3,650 days!

$19,400,000 \text{ coins} / 3650 \text{ days} = \text{Daily coins that will be shared between active Master Nodes} = 5315 \text{ coins}$
The coin will launch at a price of \$3
It will require 2000 coins to run each Master Node.

Example: If you earned 2000 coins during the pre-registration period, you will be issued one full Master node.
This would make you 10.63 Quaestor coins a day for 10 years, if, 500 Master Nodes are set up. If only 250
Master Nodes are set up, you would receive double the amount of coins.

Quaestor Coins Affiliate Supply

1)

All earned coins will be set up as Master Nodes by the company. You will be paid directly to your receiving address with the frequency of the blockchain sending them out. After the 10 years of Master Node Mining process, the original coins will be delivered to the owner (the active Affiliate that earned them).

In the entire 3650 days, the coin is running with Master Node setup, the owners of the coins, cannot:

- a) Change them to cash
- b) Get them send to own wallet address
- c) Make a sales agreement on them

2)

Both the sponsor, and the new customer will receive 50 (20) Quaestor coins (if they want). This rule only applies until 400.000 coins has been given away for free.

Quaestor Exchange

Our own Exchange will open 3rd Quarter 2019. Our Exchange will be unique, because the Matrix + Matching Bonus network you build now, will receive 50% of the brokers fee dependent on your downline split into following:

- 50% of the 50% is your direct customer bonus
- 25% of the 50% is for Matrix Bonus (See below for info)
- 25% of the 50% is for Matching Bonus. (See below for info)

We understand that some people will not join the affiliate part of our business. However, you will have a signup link for customers, meaning that every person you introduce as a customer to our Exchange will generate direct earnings for you, and then also for the downline.

If a customer, that is not in the business as an affiliate, introduces new customers, you yourself share the 50% of the 50% with the customer who introduced another customer. This bonus is given in infinite depth.
